

***Rithy Audio Visuals would like to announce its 3 new quiz templates starting today***

**GAME TEMPLATES ARE INCLUDED FOR THREE POPULAR INTERACTIVE GAME FORMATS!**

**Win a Million** – Similar to the popular Who Wants to Be a Millionaire? TV show, Win a Million includes 15 questions with progressively higher point values. This format is effective for presenting and reinforcing concepts of increasing difficulty.

**The Quiz Challenge** – The Quiz Challenge is a game that is similar to academic quiz bowl TV shows. It includes three rounds of eight questions. The question point value increases in each round (typically 100, 200, 300 points).

**And The Answer Is...** – And The Answer Is... is a Jeopardy-like game that includes a master game board with 25 user-defined questions. Each question is presented in the form of an “answer” and participants are asked to select the “question” from a list of choices. Questions are grouped into five categories and increase in value from 100 to 500 points per question. This format works very well when the presenter wants to reinforce multiple points in several categories.
